

BEAUTIFUL. FLEXIBLE. HIGH QUALITY SOUND.

THE M 240

THE PINNACLE OF LOUDSPEAKERS.

WHD

WHD

THE M 240.

IT SOUNDS GOOD. IT LOOKS
GOOD. IT'S AS FLEXIBLE AS
YOU NEED IT TO BE

Forget the preconception that a loudspeaker must have a specific appearance – **with the M 240 you decide how it should look.** Design the features yourself: choose from white glass, green glass, black glass, high-grade steel or East African Wenge wood finishes. You could even choose a gypsum screen, which you can paint any colour you desire. If your colour palette changes, simply repaint the screen. The on-wall housing is available as standard in white, anthracite or any RAL colour you specify, we believe the choice of how the M 240 looks should be yours. Or would you like to have another type of surface or colour? Let us know and we will adapt it to your requests!

Not only does the M 240 look sleek, with its compact 240 mm (L) x 240 mm (W) x 87 mm (D) dimensions, **it also sounds outstanding.** Featuring the latest in speaker driver technology the M 240 delivers a pure, clean sound that belies its size.

In keeping with the flexibility of speaker range, we've designed this brochure in very similar proportions to the M 240. All you need to do is look for the perfect spot for your new loudspeaker, open to the page that most appeals to you and position the brochure on the wall; it couldn't be simpler.

So what else can we offer you besides high quality loudspeakers? WHD can provide complete Sound Solutions to fulfil your audio requirements. Speak to us – we are always listening and ready to offer you an ideal solution.
