DESIGN PLS

"Simplicity in design and use, in balance with space and interiors, brought together in a square of steel"

# SELECT

*choose from the timeless classics*

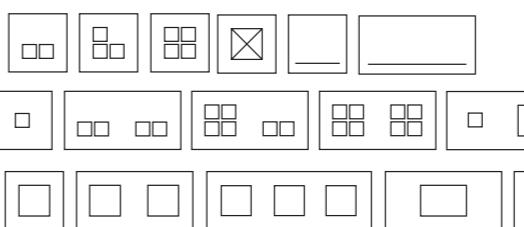

The unique Lithoss design in combination with exclusive handmade finishes (like brushed stainless steel, polished chrome, authentic bronze and gunpowder black, ...) are in perfect harmony with your home interior.  
The slogan « choose from the timeless classics » emphasises on the timeless character from our design switches.

Het unieke Lithoss design in combinatie met de exclusieve handmade afwerkingen (zoals geborstelde inox, gepolijste chrome, authentiek brons en fusain, ...) passen dan ook perfect in uw interieur.  
De slogan « choose from the timeless classics » slaat op het tijdloze karakter van onze design schakelaars.

Le design Lithoss en combinaison avec des finitions artisanales, comme l'inox brossé, le chrome poli, d'autheutique finitions bronze et canon de fusil, .. s'intègre parfaitement dans le style de la pièce moderne ou classique.  
La formule « choose from the timeless classics » renforce le caractère intemporel de nos interrupteurs.

Das einzigartige Design von Lithoss, in Kombination mit exklusiven handgefertigten Oberflächen wie zum Beispiel gebürsteter Edelstahl, polierter Chrom, antike Bronze oder Fusain, welches sich optimal in jede Inneneinrichtung integrieren lässt.  
Der Slogan « Wähle aus zeitlosen Klassikern » verstärkt den zeitlosen Charakter unserer Design-Schalter.

## RAL9010

In many contemporary interiors the original plaster walls are featured, uncovered and unpainted. RAL 9010 has a fine white finish which makes the plates all but invisible when recessed into a plaster wall. A perfect part of the whole.

Available in Standard, Textured and Soft Touch finish

Bij veel eigentijdse interieurs merken we dat witte muren een evidentie zijn. Ral 9010 heeft een mooie witte finish die de plaatjes haast onzichtbaar maakt, ingebouwd of in opbouw. Een perfect deel van het geheel.

Verkrijgbaar in Standaard, Structuur en Soft Touch afwerking

Dans bon nombre d'intérieurs contemporains, les murs d'origine sont mis en valeur, sans enduit et sans peinture. Le RAL 9010 est doté d'une finition blanche raffinée qui rend les plaques parfaitement invisibles lorsqu'elles sont encastrées dans un mur en plâtre. Un ensemble qui s'intègre dans la plus grande perfection.

Disponible en finition Standard, Structure et Soft Touch

In vielen zeitgenössischen Inneneinrichtungen, sind die verputzten Wände weder tapiziert noch gestrichen. RAL 9010 hat eine feine weiße Oberfläche, weshalb die Blenden, in der verputzten Wand eingelassen, praktisch unsichtbar sind. Ein perfekter Teil des Ganzen.

Erhältlich als Ausführungen Standard, Struktur und Soft Touch.

## Stainless steel

The fine brushing on the stainless steel surface gives the product a distinctive quality. The polished outer side of the switch is accentuated by its modest appearance. The stainless steel finish shows the cover plate in its most sober form, with its coarsest texture.

De fijne borsteling op het roestvast staal geeft de producten een onderscheidend karakter. Het geslepen uiterlijk van de schakelaar wordt geaccentueerd door haar ingetogen aanblik. De Inox afwerking toont het afdekplaatje in zijn onverbloemde vorm, met zijn meest rudimentaire textuur.

Le brossage raffiné de leur surface en acier inoxydable confère à ces produits une qualité distinctive. Le côté extérieur poli de l'interrupteur est accentué par son aspect modeste. La finition en acier inoxydable illustre la plaque dans sa forme la plus sobre, avec sa texture plus épaisse.

Die fein gebürstete Oberfläche der Edelstahlausführung, verleiht dem Produkt eine unverwechselbare Qualität. Die polierte Außenseite des Schalters akzentuiert sein schlichtes Erscheinungsbild. Die Oberflächenausführung in Edelstahl zeigt die Abdeckblende in ihrer nüchternsten Form, mit ihrer gröbsten Struktur.

## Brass

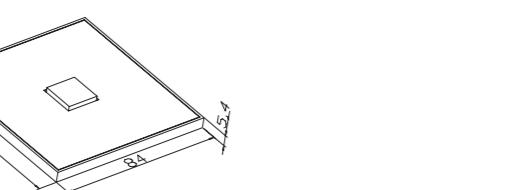

The golden finish of Lithoss' Brass caresses the eye. The radiance of a precious metal gives the cover plate an exclusive cachet. Once gold was the symbol for purity.

For Lithoss this means the pure line of the switch, in equilibrium with its surroundings.

De goudkleurige afwerking van Lithoss' Laiton is een streling voor het oog. De edelmetalen schittering geeft de afdekplaatjes een exclusief elan. In de oudheid stond goud symbool voor zuiverheid. Bij Lithoss betekent dit zuiverheid van toets, in balans met de omgeving.

La finition dorée du laiton caresse les yeux. La luminance de ce métal précieux donne aux plaques de finition un cachet exclusif. Autrefois, l'or était le symbole de la pureté. Pour Lithoss, ce symbole se retrouve dans la ligne épurée de l'interrupteur, en parfait équilibre avec tout ce qui l'entoure.

Die goldene Oberfläche der Lithoss Produktreihe Messing, schmeichelt dem Auge. Der Glanz des Edelmetalls gibt den Abdeckblenden ein exklusives Gütesiegel. Gold war früher das Zeichen für Reinheit. Lithoss sieht in dieser Ausführung die klaren Linien des Schalters, im Gleichgewicht mit seiner Umgebung.

## Nickel

This highly polished finish is an eye-catcher in an interior. It has the appearance of brushed steel and sparkles like a diamond.

Deze hoogglanzende finish is een blikvanger in het interieur. Ze heeft het uitzicht van geborsteld staal en pronkt als diamant.

Cette finition extrêmement polie attire tous les regards dans un intérieur. Son aspect est semblable à celui de l'acier brossé et scintille comme un diamant.

Diese hochglanzpolierte Oberfläche ist ein Blickfang in jeder Inneneinrichtung. Sie hat das Erscheinungsbild von gebürstetem Stahl, funkelt aber wie ein Diamant.

## Chrome

The Chrome version is very special and remarkable. The white polished chrome is a shiny metal that reflects everything from its environment, just like a mirror.

De Chrome versie is heel bijzonder en trekt meteen de aandacht. De wit gepolijste chrome is als het ware een spiegel voor alles in zijn omgeving.

La finition Chrome est remarquable. Cette finition claire et polie s'apparente avec sa brillance à un vrai miroir.

Die Chrom-Version ist sehr speziell und bemerkenswert. Die weiß polierte Chrom-Oberfläche ist eine glänzende Metallfläche, welche alles in ihrer Umgebung reflektiert, fast wie ein Spiegel.

## Fusain Gunpowder black

With its anything but contemporary feel, Fusain seems an odd man out in the range. However it is just a logical step forward in switches and sockets. An almost carbon black finish lends the interior a note of distinction and stands out from the almost boundless mass.

Fusain lijkt met zijn allesbehalve alledaagse uiterlijk een buitenbeetje in de reeks. Het is echter niets meer dan een logische evolutie in schakelaars en stopcontacten. Een bijna roetzwarte afwerking verstrekt het interieur de nodige klasse en distanteert zich van de bijna oeverloze massa.

Avec son aspect plus classique, le canon de fusil semble être l'élément rapporté de la gamme. Il s'agit cependant d'une évolution très logique dans le domaine des interrupteurs et des prises. Sa finition pratiquement noire charbon prête à l'intérieur une note de distinction et lui permet de se démarquer de la masse quasiment infinie.

Mit seinem, alles andere als zeitgenössischen Erscheinungsbild, stellt Fusain eine eher außergewöhnliche Variante in der Lithoss Produktpalette dar. Aber genau das ist ein logischer Schritt vorwärts, wenn es sich um Schalter und Steckdosen handelt. Die fast kohleschwarze Oberfläche, verleiht der Inneneinrichtung einen markanten Charakter und hebt sich von der fast grenzenlosen Masse ab.

## Bronze

Bronze is one of the earliest materials used by mankind. Lithoss applies this material to contemporary cover plates. The craftsmanship with which the bronze is worked means that each plate and each switch has its own colour. Not so much a difference as a display of uniqueness.

Brons behoort tot de oudste door de mens gebruikte materialen. Lithoss past dit materiaal toe op zijn tijdloze afdekplaten. Door het artisanale procédé van het bronzeren heeft elk plaatje en elke druktoets een eigen kleur. Een afwijking die geen afwijking is, maar een etaleren van uniciteit.

Le bronze compte parmi les toutes premières matières qui a été utilisé par l'homme. Lithoss se sert de cette matière pour fabriquer des plaques de finition contemporaines. Grâce au travail artisanal du bronze, chaque plaque et chaque interrupteur possèdent sa propre couleur. Il ne s'agit pas seulement d'une différence, mais plutôt de l'illustration de leur caractère unique.

Bronze ist eines der ersten Materialien, welches von der Menschheit benutzt wurde. Lithoss verwendet dieses Material für zeitgenössische Abdeckblenden. Die Handwerkskunst, mit der die Bronze bearbeitet wird hat zur Folge, dass jede Abdeckblende und jeder Schalter eine individuelle Farbe haben. Was nicht unbedingt einen Unterschied, sondern viel mehr ein Zeichen von Einzigartigkeit darstellt.

## Custom RAL

Lithoss lets you choose the colour of the cover plates yourself from the RAL colour chart. Whether this is to make the plates merge into the walls or to create contrast, the options are almost endless.

Available in Standard, Textured and Soft Touch finish  
Minimum order quantity : 10 pieces

Lithoss laat toe de kleur van de afdekplaten zelf te kiezen op basis van een RAL-kleur. Of men dit nu doet om de plaatjes te laten samensmelten met muren of net een hoog contrast hiertussen te genereren, de mogelijkheden zijn haast eindeloos.

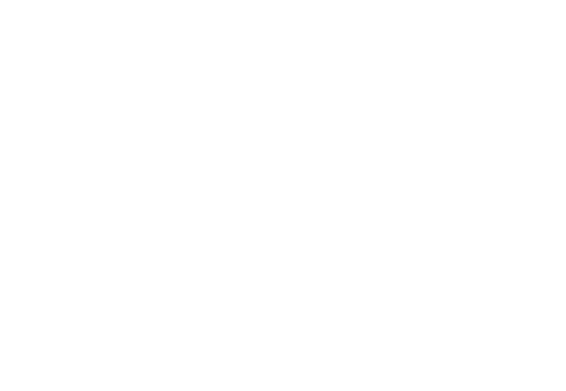

Verkrijgbaar in Standaard, Structuur en Soft Touch  
Minimum bestelhoeveelheid : 10 stuks

Lithoss vous permet un choix de couleurs variées dans l'éventail de finition du nuancier RAL au niveau des plaques de finition. Que votre but soit d'encastrer les plaques dans les murs ou au contraire de les faire ressortir par un fort contraste, les options sont pratiquement illimitées.

Disponible en finition Standard, Structure et Soft Touch  
A commander par minimum 10 pieces

Lithoss gibt Ihnen die Möglichkeit, den Farnton der Abdeckblenden aus der RAL- Farbpalette selbst zu wählen. Ob sich nun die Blenden in die Wand integrieren oder in einem starken Kontrast von der Wand abheben sollen, die Möglichkeiten sind praktisch endlos.

Erhältlich als Ausführung Standard, Struktur und Soft Touch  
Minimum Bestell Quantität : 10 Stück

# ILLUME

bring your vivid imagination to light

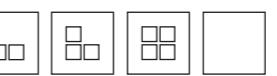

The ILLUME range combines the functions switch, technology and lighting in one element. The frame diffuses the light on the four sides of the switch which creates a special atmosphere. The "glow in the dark" determines the theme for each room, whether its bright white, intense red, warm orange or powerful blue. A switch and orientation light in one *brings your vivid imagination to light*.

De ILLUME reeks combineert de functies schakelaar, technologie en verlichting in één element. De oplichtende, matte kader zorgt ervoor dat je sfeer kan creëren. De "glow in the dark" bepaalt het thema van elke kamer, of het nu helder wit, levendig rood, warm oranje of krachtig blauw is. Een schakelaar die fungiert als verlichting brengt dan ook *your vivid imagination to light*.

La collection ILLUME vous propose une gamme d'interrupteurs rétroéclairés et technique dans un seul élément. Le cadre mat diffuse la lumière par 4 côtés créant une atmosphère chaleureuse ou dynamique. La couleur détermine le thème pour chaque chambre, blanc claire, rouge intense, orange ambré ou bleu métallique. Un interrupteur et lumière d'orientation dans un élément *brings your vivid imagination to light*.

Die ILLUME Produktgruppe kombiniert die Funktionen Schalten, Technologie und Beleuchtung in einem Element miteinander. Der Rahmen verteilt das Licht über 4 Seiten nach außen, um eine Atmosphäre zu schaffen. Das „Glühen im Dunkeln“ erzeugt eine individuelle Stimmung in jedem Raum, egal ob es sich um ein helles Weiß, ein tiefes Rot, ein warmes Orange oder ein kräftiges Blau handelt. Ein Schalter, in Kombination mit einem Orientierungslicht, *bringt Ihre lebhafte Phantasie zum Leuchten*.

## Orientation light

The ILLUME switch can be easily transformed to an orientation light by removing the cover plate and adding a blind plate : **SBXT**.

De ILLUME schakelaar kan eenvoudig omgetoverd worden tot oriëntatieverlichting door het wegnemen van de afdekplaat en het toevoegen van een blinde plaat : **SBXT**.

L'interrupteur « ILLUME » peut être transformé facilement dans une lumière d'orientation en ajoutant d'une plaque vierge : **SBXT**.

Der ILLUME Schalter kann durch das Abnehmen der Abdeckblende und das Anbringen einer Blind - Abdeckblende, sehr einfach in eine Orientierungsleuchte umgewandelt werden : **SBXT**.

**SBXT**

24VDC

Parts included:

- frame
- cover plate
- mounting frame

**SBQLW**

250V - 0,6W (to be connected directly to 250VAC)

Accessories: Plaster kit

Parts included:

- frame
- protection frame
- cover plate
- LED mounting frame (Low consumption)

Available in the colours white and blue (**SBQLB**)

## KNX

The well known 24V pushbutton range (with or without LED's) is available in a KNX/EIB version.

The pushbutton frames are delivered with a plug & play wired KNX/EIB pushbutton interface reducing the installation time to an absolute minimum.

### Temperature Sensor

The Lithoss KNX switch (with or without LED) is being delivered with a plug & play wired KNX/EIB pushbutton interface that offers 4 outputs, 4 digital inputs and 4 analog inputs for sensors. The temperature sensor is integrated in the metal frame so it stays in every way discrete.

Available on a single switch (1-4 buttons) and on a double switch (2-8 buttons).

Type of sensor : NTC  
Internal tolerance : +/- 3%  
Measure range : -20° C till + 100° C

### Thermostat

Lithoss frames are compatible with different brands: Bticino (Living, Light, Light Tech), Legrand (Mosaic 45), Peha (Concept 45), Vimar (Eikon and Plana).

Possible to integrate into single frame : SBMG, double frame SBMMG, triple frame SBMMMG or combination frames : SB1TMG, SB2TMGR/L, SB4TMG.

Parts included:  
•frame  
•cover plate  
•mounting frame  
•protection frame

Thermostat module not included  
Depending on the brand available in 3 colours : white, anthracite and grey.

### Movement sensor

Possible to integrate into single frame : SBMG, double frame SBMMG, triple frame SBMMMG.

Parts included:  
•frame  
•cover plate  
•mounting frame  
•protection frame

Movement detection module not included

Depending on the brand available in 3 colours : white, anthracite and grey.

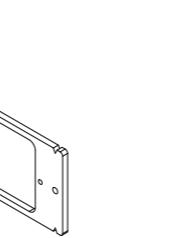

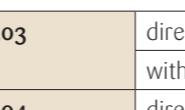

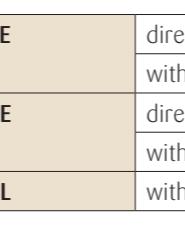

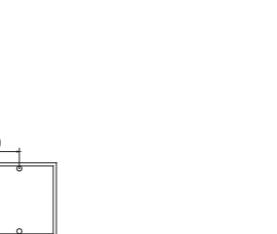

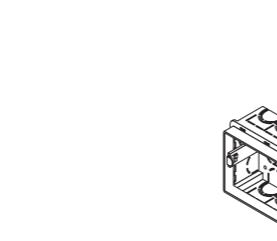

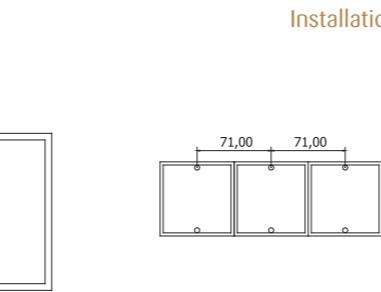

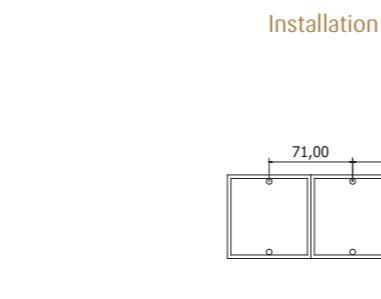

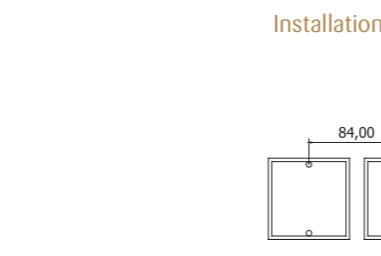

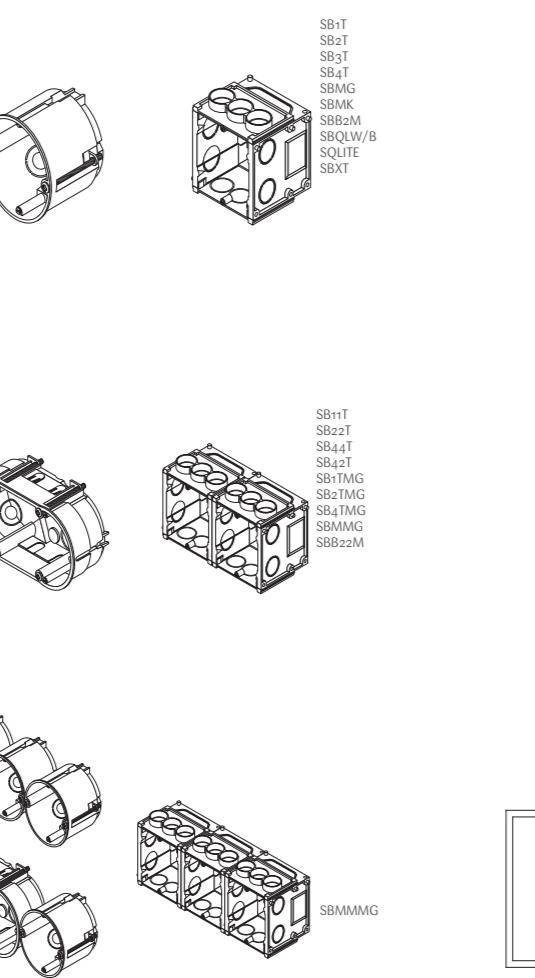

## Wall boxes

Lithoss switches and sockets should be installed on wall boxes with vertical screws (screw distance: 60mm).  
For wall boxes of other countries, please contact us for more information.

Lithoss producten installeren op inboundozen met verticale vijzen (hartafstand: 60mm).  
Voor landspecifieke inboundozen, contacteer ons voor meer informatie.

Les interrupteurs Lithoss doivent être installés dans des boîtes d'encastrement avec vis (entre-axe entre les vis : 60mm).  
Pour boîtes d'encastrement d'autres pays, n'hésitez pas à nous contacter.

Lithoss - Produkte lassen sich in Einbaudosen mit Schrauben (Schraubenabstand : 60mm) installieren.  
Bitte informieren Sie sich vor der Installation über weitere Details.

## Italian standard wall boxes

Lithoss switches and sockets are compatible with Italian standard wall boxes by using an adaptation plate. Some products are direct compatible (see table).

There will always be a part visible of the adaptation plate that should be plastered over to finish.

### Exploded view

cover plate | mounting frame | frame | adaptation plate | wall box

\*An adaptation of the mounting frame has made it possible to install Lithoss products on the KAISER wall boxes (dia 59mm instead of 61mm). Compatibility with Legrand wall boxes and Kaiser wall boxes: see our technical guide.

## Symbol library

To personalize our switches, text or symbols can be printed on the buttons and the cover plate. These symbols are printed via a special silk-screen process.

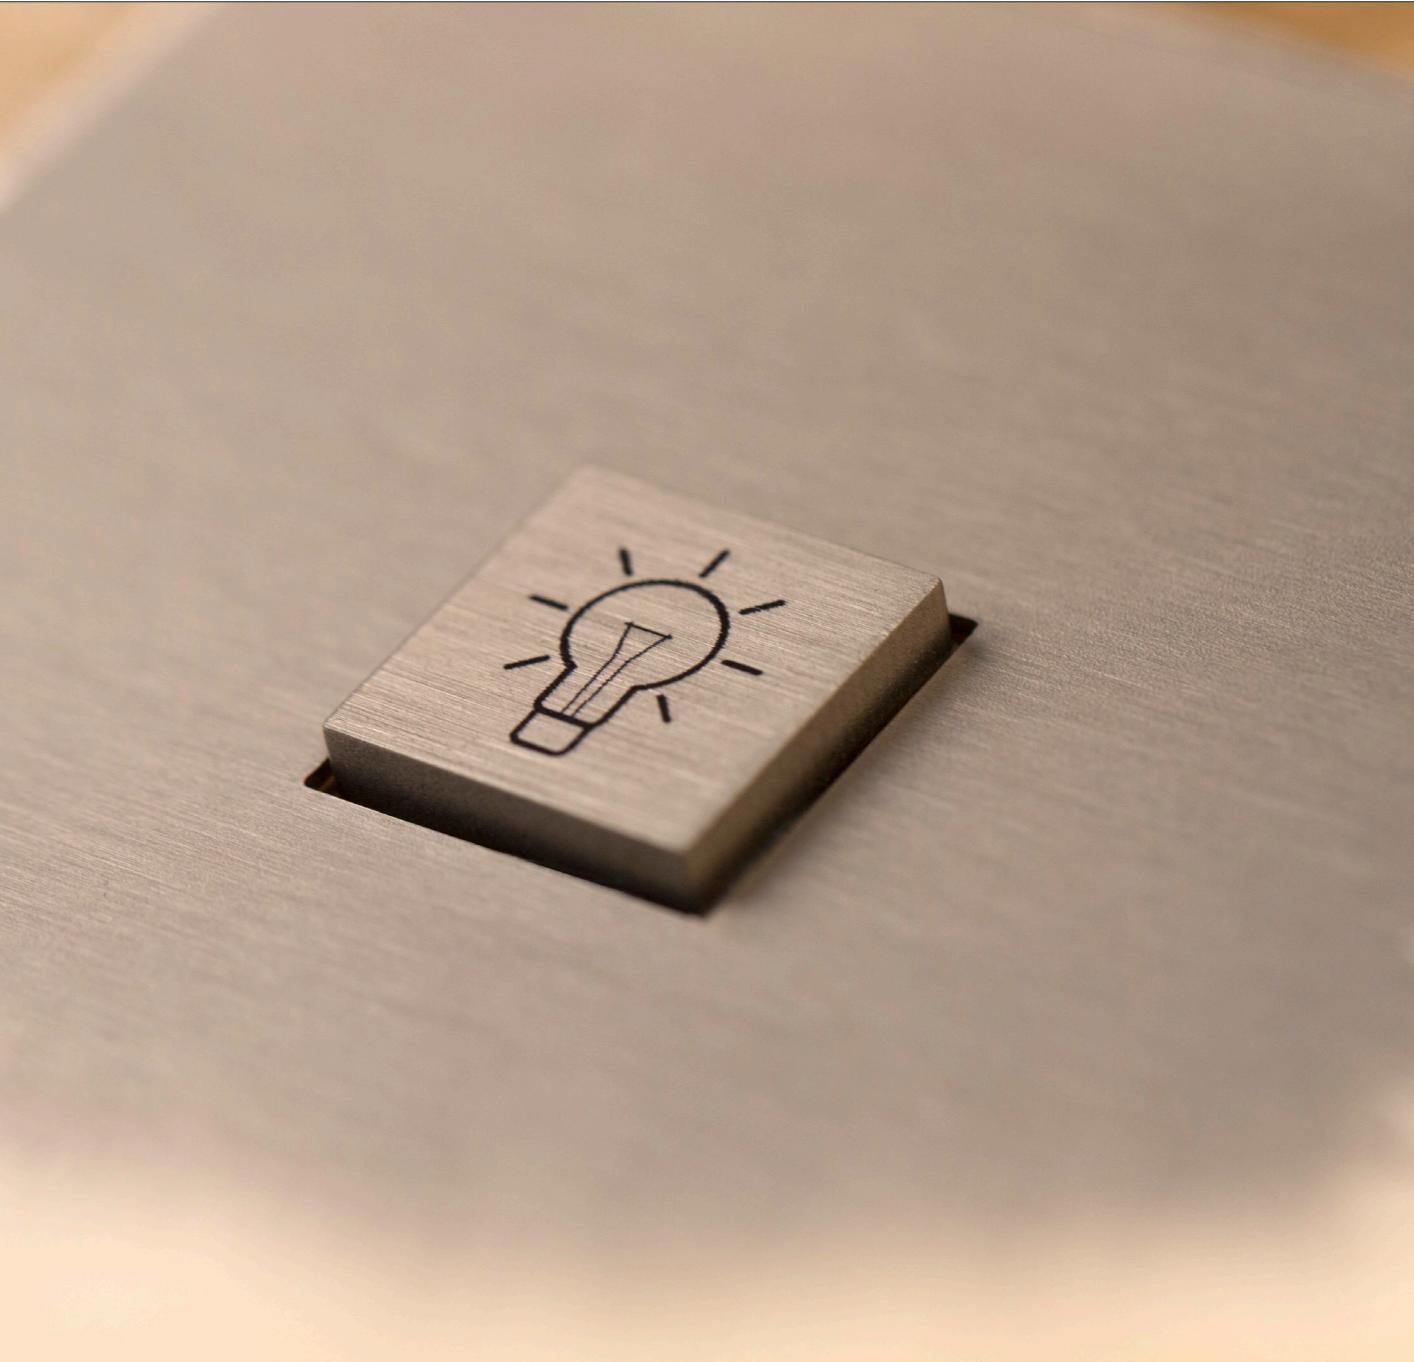

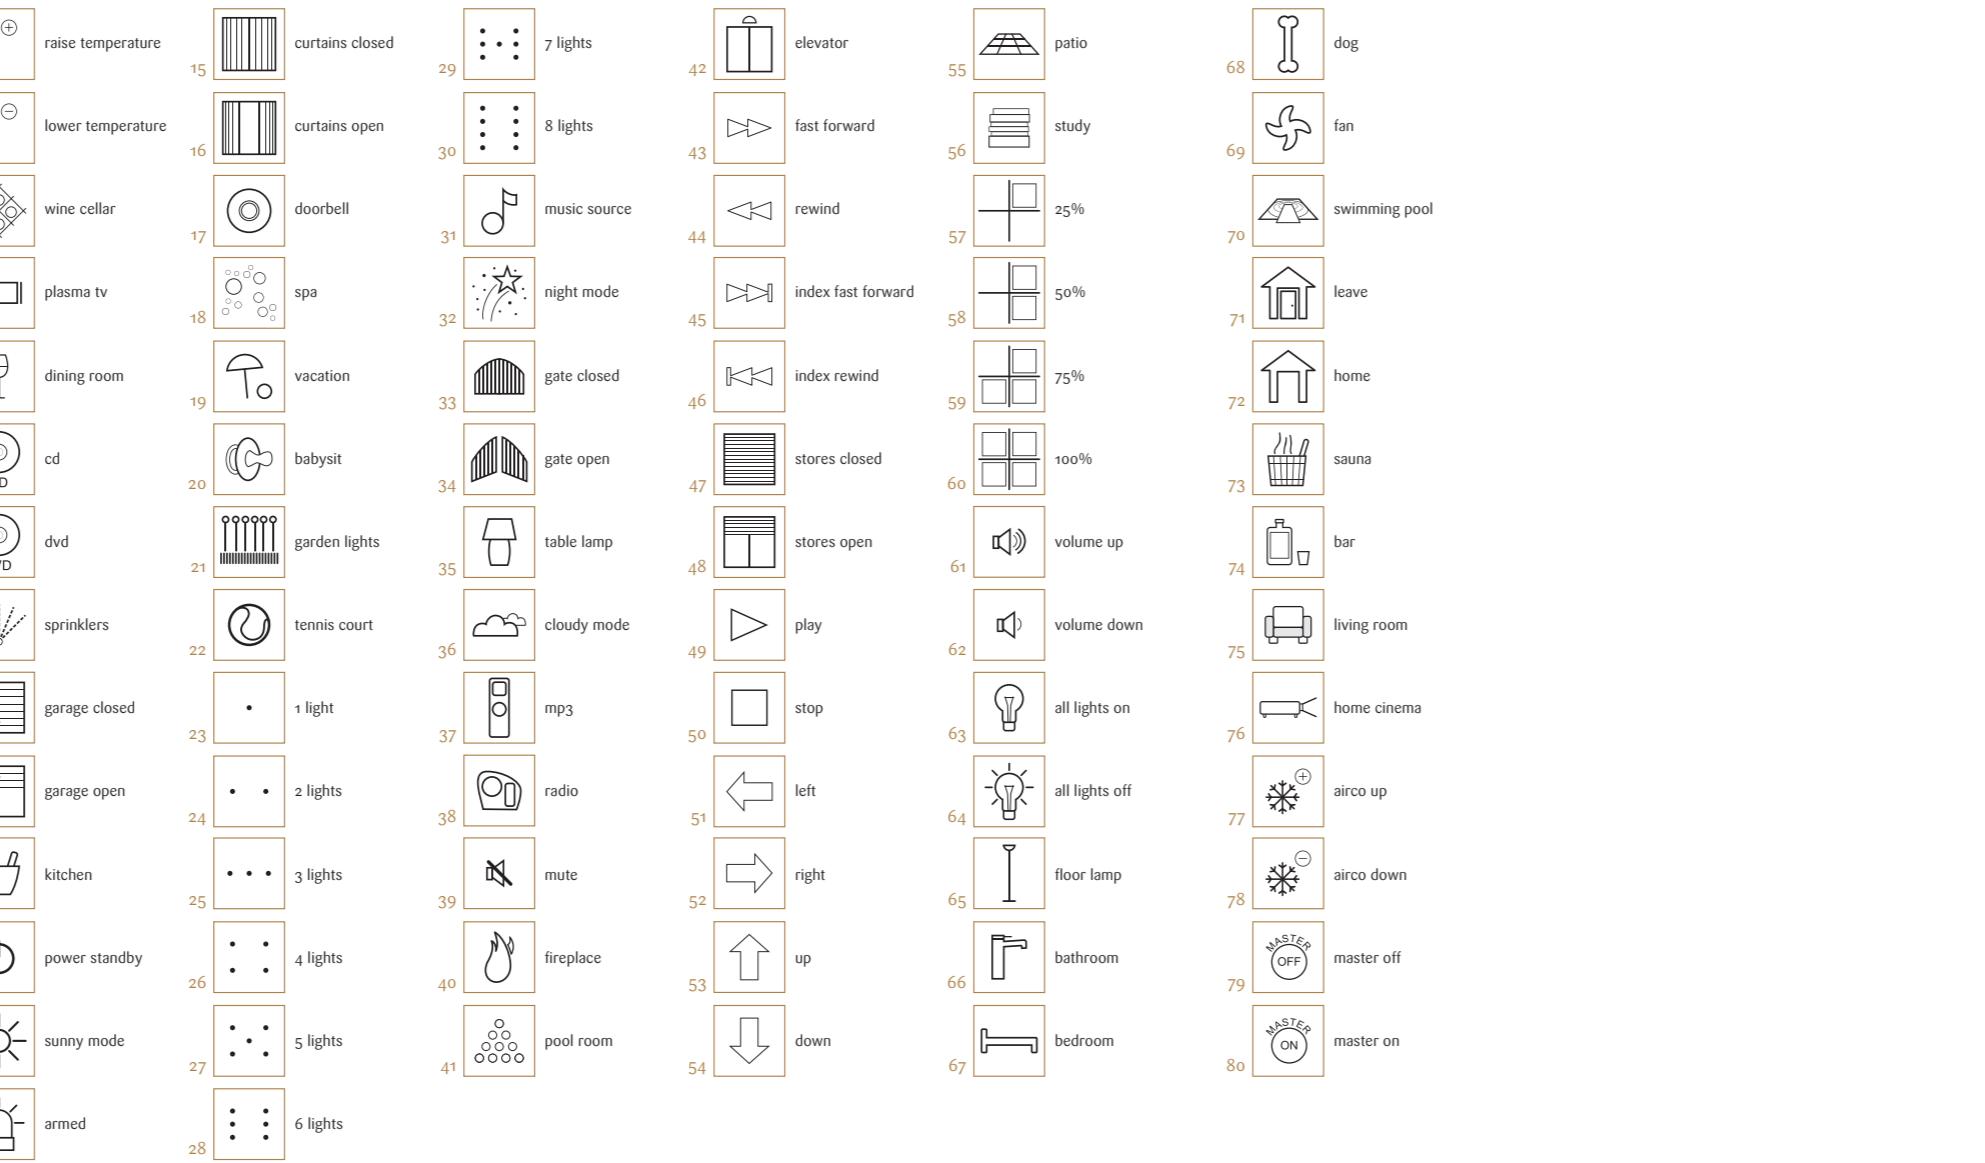

The Lithoss icon library contains 80 symbols.

Other symbols can be printed when quality images are supplied.

Om de toetsen en afdekplaten van onze schakelaars te personaliseren kunnen er grafische symbolen of tekst op gedrukt worden. Deze symbolen worden via een specifieke zeefdruk geprint. De Lithoss symboolbibliotheek telt 80 symbolen. Andere symbolen kunnen op aanvraag gedrukt worden mits deze aangeleverd worden in hoge kwaliteit.

Pour personnaliser nos interrupteurs, on peut les décorer avec des symboles ou du texte. Ces symboles peuvent être imprimés sur les boutons ou sur la plaque. Ces symboles sont placés via un processus sérigraphique. Le Lithoss bibliothèque compte 80 symboles. C'est possible d'imprimer d'autres symboles s'ils sont livrés en haute qualité.

Um die Tasten und Abdeckblenden unserer Schalter zu personalisieren, können Sie grafische Symbole und/ oder Text aufdrucken lassen. Dies geschieht durch ein spezielles Siebdruckverfahren. Die Lithoss Symbol Bibliothek beinhaltet 80 Symbole. Andere Symbole können auf Anfrage gedruckt werden, wenn diese als hochauflösenden Vorlage vorhanden sind.

Exploded view : Swiss frame also compatible for our standard switches and sockets

## Modules

Compatibility with other brands or sockets on request.

Compatibiliteit met andere merken van stopcontacten  
= op aanvraag.

Compatibilité avec des autres marques sur demande.

Kompatibilität mit Steckdosen anderer Hersteller  
= auf Anfrage.

Sockets and other connections exist in different module widths.

A few examples: 1 module: RJ11, RJ45, TV-connector, ...  
2 modules: schuko outlet, TV/FM connector, ...  
3 modules: shaver outlet hotel, badgreader, ...

All MG mounting frames have space for exactly 2 modules.  
The SB3MT and SB4MT offer space for 3 and 4 Bticino/Vimar modules.  
The SBMK should only be used for sockets.

Lithoss is compatible with the following brands of sockets:

- Bticino (living, light and light tech)
- Legrand (mosaic)
- Hager (systo)
- Peha (concept 45)
- Vimar (eikon and plana)
- 55' modules (modules with exterior dimensions 55x55)

*Depending on the brand available in 3 colours : white, anthracite and grey*

Stopcontacten en modules bestaan in verschillende modulebreedtes.

Enkele voorbeelden: 1 module: RJ11, RJ45, TV-connector, ...  
2 modules: Schuko stopcontact, TV/FM, ...  
3 modules: Scheerstopcontact, Kaartlezer, ...

Alle MG monturen bieden plaats aan exact 2 modules.  
De SB3MT en SB4MT bieden plaats aan 3 en 4 Bticino modules.  
De SBMK is uitsluitend geschikt voor stopcontacten.

Lithoss is compatibel met volgende merken van modules:

- Bticino (living, light and light tech)
- Legrand (mosaic)
- Hager (systo)
- Peha (concept 45)
- Vimar (eikon and plana)
- 55' modules (modules met exteriere afmetingen 55x55)

*Afhangelijk van het merk, beschikbaar in 3 kleuren : wit, antraciet, grijs*

Les prises existent en différentes largeurs de module.

Quelques exemples : 1 module : RJ11, RJ45, connecteur TV, ...  
2 modules : Prise Schuko, connecteur TV/FM, ...  
3 modules : Prise rasoir hôtel, ...

Toutes les montures de montage MG peuvent accueillir exactement  
2 modules. Le SB3MT et SB4MT offre de l'espace pour 3 modules et  
4 modules Bticino. Le SBMK ne doit être utilisé que pour les prises.

Lithoss est compatible avec les marques de prises suivante:

- Bticino (living, light and light tech)
- Legrand (mosaic, uniquement couleur blanc)
- Hager (systo)
- Peha (concept 45)
- Vimar (eikon et plana)
- 55' modules (modules avec dimension extérieure 55x55)

*Ces modules sont à obtenir en 3 couleurs : anthracite, blanc et gris*

Steckdosen und Buchsen gibt es in verschiedenen Modulbreiten.

1 Modulbreite: RJ11, RJ45, TV-Anschluss, ...  
2 Modulbreiten: Schuko - Steckdose, TV/Radio - Anschluss, ...  
3 Modulbreiten: Rasier - Steckdose, programmierbarer Thermostat

Alle MG - Montagerahmen haben eine Aussparung für 2 Modulbreiten.  
Der SB3MT und der SB4MT bieten Platz für 3 b.z.w. 4 Modulbreiten.  
Der SBMK darf nur für Steckdosen verwendet werden.

Lithoss ist kompatibel mit Modulen folgender Marken und Serien:

- Bticino (living, light and light tech)
- Legrand (mosaic, Die Module sind nur in Weiß erhältlich)
- Hager (systo)
- Peha (concept 45)
- Vimar (eikon und plana)
- 55' Modulen (Modulen mit außer Messungen 55x55)

*Diese Module sind in den Farben Anthrazit, Weiss und Silbergrau erhältlich*

A'DESIGN AWARD  
WINNER 2014

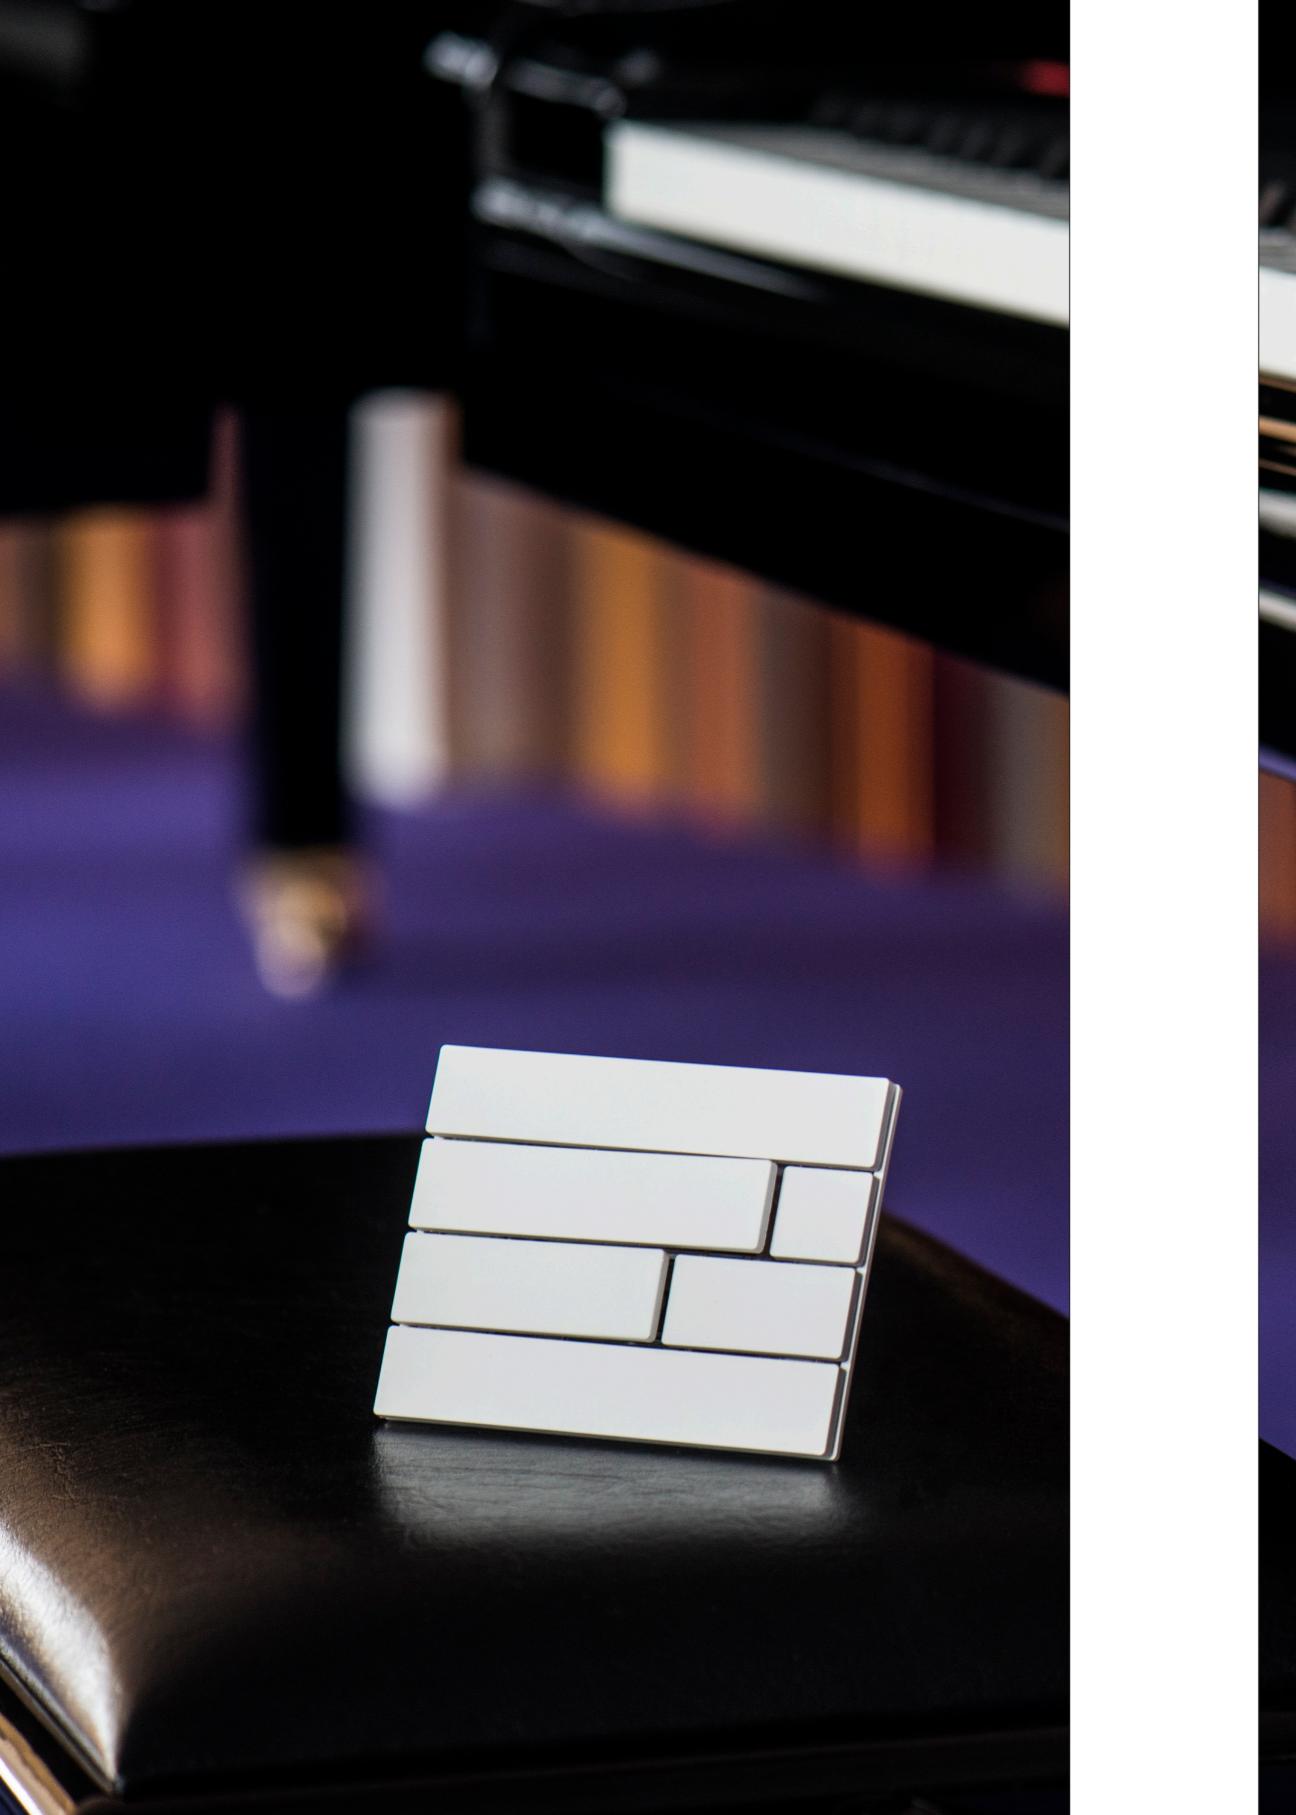

G O L D

NOMINEE 2014

*"To play without passion is inexcusable!"*

Ludwig van Beethoven

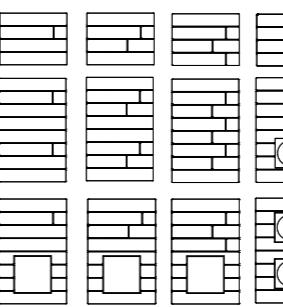

The PIANO Switch design is more than an ordinary switch. It becomes a modest, yet original object in your interior. It's been designed to look like soft piano keys. The PIANO is frameless, minimalist and simple. The PIANO is being developed based on a high-end composite material added with exclusive minerals to create the cold «corian» like' feeling. The materials feel heavy and massive emphasizing the high quality standards of Lithoss products.

Vaak lijkt een schakelaar een banaal element binnen het interieurconcept. Het ontwerp van de PIANO schakelaar is gebaseerd op de «soft keys» van een piano. De PIANO verbergt bij frontaal zicht de kader, en is van design: minimalistisch en eenvoudig. Qua materiaalkeuze is bewust gekozen voor een hoogwaardig composiet materiaal, verrijkt met exclusieve mineralen, om het koele karakter van de afwerking 'corian' te evenaren. Het materiaal voelt zwaar en massief aan, dat de kwaliteit benadrukt die voldoet aan de standaard van het huidige Lithoss gamma.

Un interrupteur est souvent considéré comme un élément fonctionnel dans une décoration intérieure. Le design est inspiré des touches «soft touch» d'un piano. Le PIANO se définit comme minimaliste et simple. Pour l'interrupteur PIANO nous avons choisi un matériel composite de haute qualité, enrichi en minéraux. Cette composition rappelle l' aspect noble du «corian». Nous avons souhaité garder le même standing que pour la gamme actuelle.

Lichtschalter und Steckdosen spielen bei der Inneneinrichtung keine besondere Rolle. Sie sind eine technische Notwendigkeit und sollen möglichst funktional sein. Lithoss setzt mit PIANO neue Akzente und greift die Klaviatur mit ihren weißen und schwarzen Tasten als Vorlage auf. Das Design ist rahmenlos, minimalistisch und geradlinig. Steckdosen und Lichtschalter sind aus einem High-End Composite-Material mit hochwertige Mineralstoffen gefertigt. Die Oberfläche fühlt sich wertig und edel an - so wie die Lithoss Classics Kollektion es vormacht.

#### Available forms (\*)

#### Dimensions

# Micromodules Wireless

The wireless transmitters and receivers work perfectly in combination with the Lithoss pushbuttons. The transmitter can easily be fitted into the wall box behind the Lithoss buttons. The receivers exist in various forms and capacities and are available with switch and dimming functions.

De draadloze zenders en ontvangers werken perfect in combinatie met de Lithoss drukknoppen. De zender kan heel gemakkelijk geplaatst worden in de inbouwdoos achter de Lithoss toetsen. De ontvanger bestaat in verschillende vormen en vermogenen en is beschikbaar met schakel -en dimfuncties.

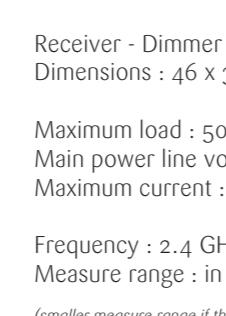

Les émetteurs et récepteurs fonctionnent en parfaite combinaison avec les boutons pousoirs Lithoss. L'émetteur peut être installé dans la boîte d'encastrement. Les récepteurs existent sous différentes formes et capacités. Ils sont également disponibles avec la fonction télérupteur et télévariateur.

Die Funk-Sender und Empfänger arbeiten perfekt in Kombination mit den Lithoss Tastern. Der Funk-Sender kann z.B. hinter dem Taster in die Unterputz-Dose platziert werden. Den Empfänger gibt es in verschiedenen Varianten zum Schalten und Dimmen oder für Jalousien und Rollen.

Measure range : in a zone of <100 m<sup>2</sup>  
  
(smaller measure range if there is metal in the environment, or the signal must pass through walls or dividing walls)

**Teleruptor (MTR500-E)**

This micromodule makes it possible to command a lighting circuit with different push buttons  
  
Dimensions : 40 x 40 x 12mm  
  
Frequency : 2.4 GHz  
Measure range : in a zone of <100 m<sup>2</sup>  
  
(smaller measure range if there is metal in the environment, or the signal must pass through walls or dividing walls)

**R12M**

Convert the 2 commands "up" & "down" of a double push button over the same wire

**D600V**

Diode to centralise on one master button

**Attention! | Opgelet! | Attention! | Achtung!**  
Can only be used in combination with 250V pb products

- Not for fluorescent lighting, LED lights or economic light bulbs
- Niet toepasbaar voor fluorescentie-, LED of spaarlampen
- Pas applicable pour des éclairages fluorescents, LED et ampoules économiques.
- Nicht anwendbar für Leuchtstofflampen mit ferromagnetischem Vorschaltgerät und für Energiesparlampen.

## Micromodules - wall box version

All modules are also available in modular version (DIN-rail) | One to foresee pro lighting circuit

## Micromodules - wall box version

All modules are also available in modular version | One to foresee pro lighting circuit

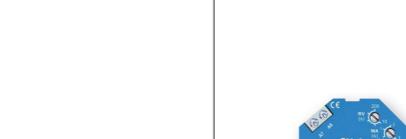

**Teleruptor 2000W (ES61)**

This micromodule makes it possible to command a lighting circuit with different push buttons  
Dimensions : 45 x 55 x 18 mm

**Teleruptor 2000W - Central control (ESR61M)**

8.230 VUC : can be used for 24V (+LED) products  
Dimensions : 45 x 55 x 32 mm

**Dimmer 500W (EUD61M)**

8.230 VUC : can be used for 24V (+LED) products  
Dimensions : 45 x 55 x 18 mm

**Module for stores and curtains (EGS61Z)**

This micromodule makes it possible to dim a lighting circuit  
Dimensions : 45 x 55 x 32 mm

**Transfo 230V/24VDC 0,25A (SNT61)**  
Switching Power Supply Units

Dimensions : 45 x 55 x 33 mm

**Attention! | Opgelet! | Attention! | Achtung!**

Some references can be used for 24V pb and 250V pb products

- Suitable for fluorescent lighting, LED lights or economic light bulbs
- Toepasbaar voor fluorescentie- of spaarlampen
- Applicable pour des éclairages fluorescents, LED et ampoules économiques.
- Anwendbar für Leuchtstofflampen mit ferromagnetischem Vorschaltgerät und für Energiesparlampen.

## Lithoss Classics

Lithoss, the international renowned design company of Belgium, is already 10 years active with its traditional high end design switches and received a couple of prestigious design awards for this.

Lithoss Classics stands for well-known traditional handmade design switches. These high-end design switches are all in exclusive finishes using massive materials and are of a very high quality, all made in Belgium. The Lithoss product range is available in various high quality finishes: Stainless Steel, Bronze, Nickel, etc...

## Lithoss Piano

Recently Lithoss launched a complete new range of design switches: The Piano.

The design is ready after 2 years of development in cooperation with a Belgium upcoming design talent: David Dos Santos. The new design is surprising, daring but still sober! The PIANO is being developed based on a high end composite material added with exclusive minerals to create the cold 'corian like' feeling. The materials feel heavy and massive emphasizing the high quality standards of Lithoss products.
