simple.smart.inexpensive.

eco+ simple.smart.inexpensive.

The eco+ product range by Lingg & Janke is convincing through its outstanding price-performance ratio. eco+ offers a wide range of KNX standard products like switching actuators, blind / shutter actuator and binary inputs.

By disclaiming the manual operation of the drives and because of the optimized design Lingg & Janke has been able to offer a more favorable price. The advantages and the high quality of Lingg & Janke products are still preserved. For example the switching actuators are still ideally suited for switching capacitive loads with high switching currents (C-load) and the relays of the blind / shutter actuators are plunged so they can be exchanged separately in case of malfunction.

Lingg & Janke

Pricelist

switching actuator

- 2, 4, 6 or 9 chanel
- switching capacity 16 A with 250 V AC
- suitable for C-load
- 3, 4, 6 or 9 rail units

	type	RU	order.no.
switching actuator 2-gang	A2F16-E	3	79231
switching actuator 4-gang	A4F16-E	4	79232
switching actuator 6-gang	A6F16-E	6	79234
switching actuator 9-gang	A9F16-E	9	79235

binary input 8-gang with integrated switching actuator

- with contact status sensor
- 8 chanel
- switching capacity 16 A with 250 V AC
- suitable for C-load
- 9 rail units

	type	RU	order.no.
binary input 8-gang with integrated switching actuator	BEA8FK16-E	9	79241

binary input 4-gang

- Variations:
- with contact status sensor, potential free - max. cable length 100 m
- 230 V, signal voltage for each channel 230 V AC/DC
- 4 chanel
- 4 rail units

	type	RU	order.no.
binary input with contact status sensor	BE4FK-E	4	79531
binary input 230 V	BE4F230-E	4	79532

Blind / shutter actuator

- 2, 4, or 6 independent drives
- switching capacity 6 A at 250 V AC
- 3, 4 or 6 rail units

	type	RU	order.no.
Blind / shutter actuator 2-gang	J2F6-E	3	79431
Blind / shutter actuator 4-gang	J4F6-E	4	79432
Blind / shutter actuator 6-gang	J6F6-E	6	79434
