

PATIOS THE SOMFY WAY

A pleasure whatever the season

HOME  
MOTION BY

somfy®

## WITH SOMFY

your patio becomes a real «outdoor room»  
that can be used all year long.

A Somfy motorised awning provides extra comfort for the patio or terrace all year round. Add remote controlled lighting and/or heating to continue entertaining well into the night.

What's more, thanks to Somfy's RTS technology and a new range of compatible automatic systems you can upgrade when you want, according to your needs.

AN EXTRA ROOM ALL YEAR ROUND

OUT ON THE TERRACE, WHATEVER  
THE SEASON, WITH SOMFY

Radio Technology Somfy®

A byword for quick and easy  
installation, with almost  
4 million customers around  
the world.

## PATIOS THE SOMFY WAY

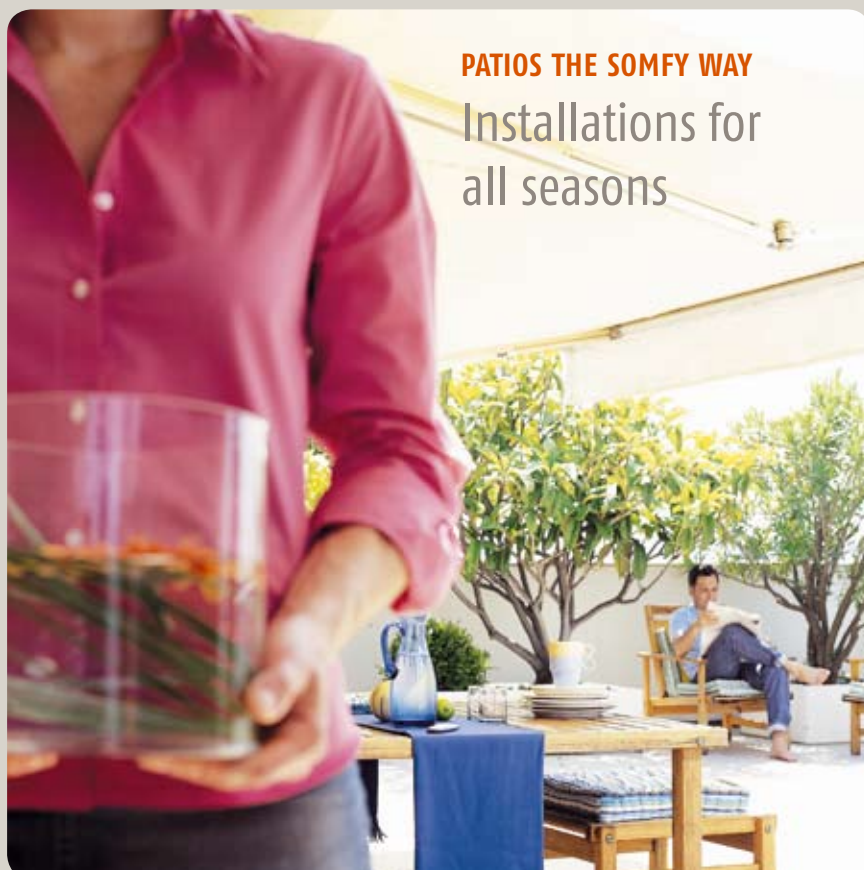

More comfort for you!

With Somfy, you no longer need to rely on the weather to enjoy your patio. With a motorised awning ... lighting ... heating ... you can enjoy your extra room all year long!

With Somfy, there's always something happening on the patio!

Thanks to Radio Technology Somfy®, remote controls and radio weather sensors can be added to your awning for total convenience. The adaptability of Somfy RTS means you can add a sensor or control at a later date if you decide to upgrade your awning functionality.

**PATIOS THE SOMFY WAY**  
Installations for  
all seasons

- > The Somfy motor gently powers your awning. It ensures your awning closes correctly in its cassette.
  - > The fabric is always perfectly taut.
  - > The valance can also be powered.
  - > The independent sun sensor is easy to attach.
  - > The wind sensor monitors conditions around your awning at all times.
  - > You can integrate lighting into your awning.
  - > Why not add an infrared strip heater to your awning?
  - > Just one remote control for everything on your patio or in your garden.
- What's more, it's shock and water resistant!

**Extend your living room to the patio with one click!**

## PATIOS THE SOMFY WAY

As easy to install as they are to enjoy.

### DRIVE SYSTEMS

#### Orea RTS

- For all types of cassette awnings.
- Perfect cassette closure and optimum fabric protection guaranteed.
- Perfectly taut fabric every time you open the awning.

### REMOTE CONTROL

#### Telis 4 Soliris Patio RTS

- 4-channel remote control + wind/sun protection control.
- Just one remote control for the awning, heating, lighting, as well as wind/sun protection systems.
- Shock and water resistant.

### TECHNOLOGY

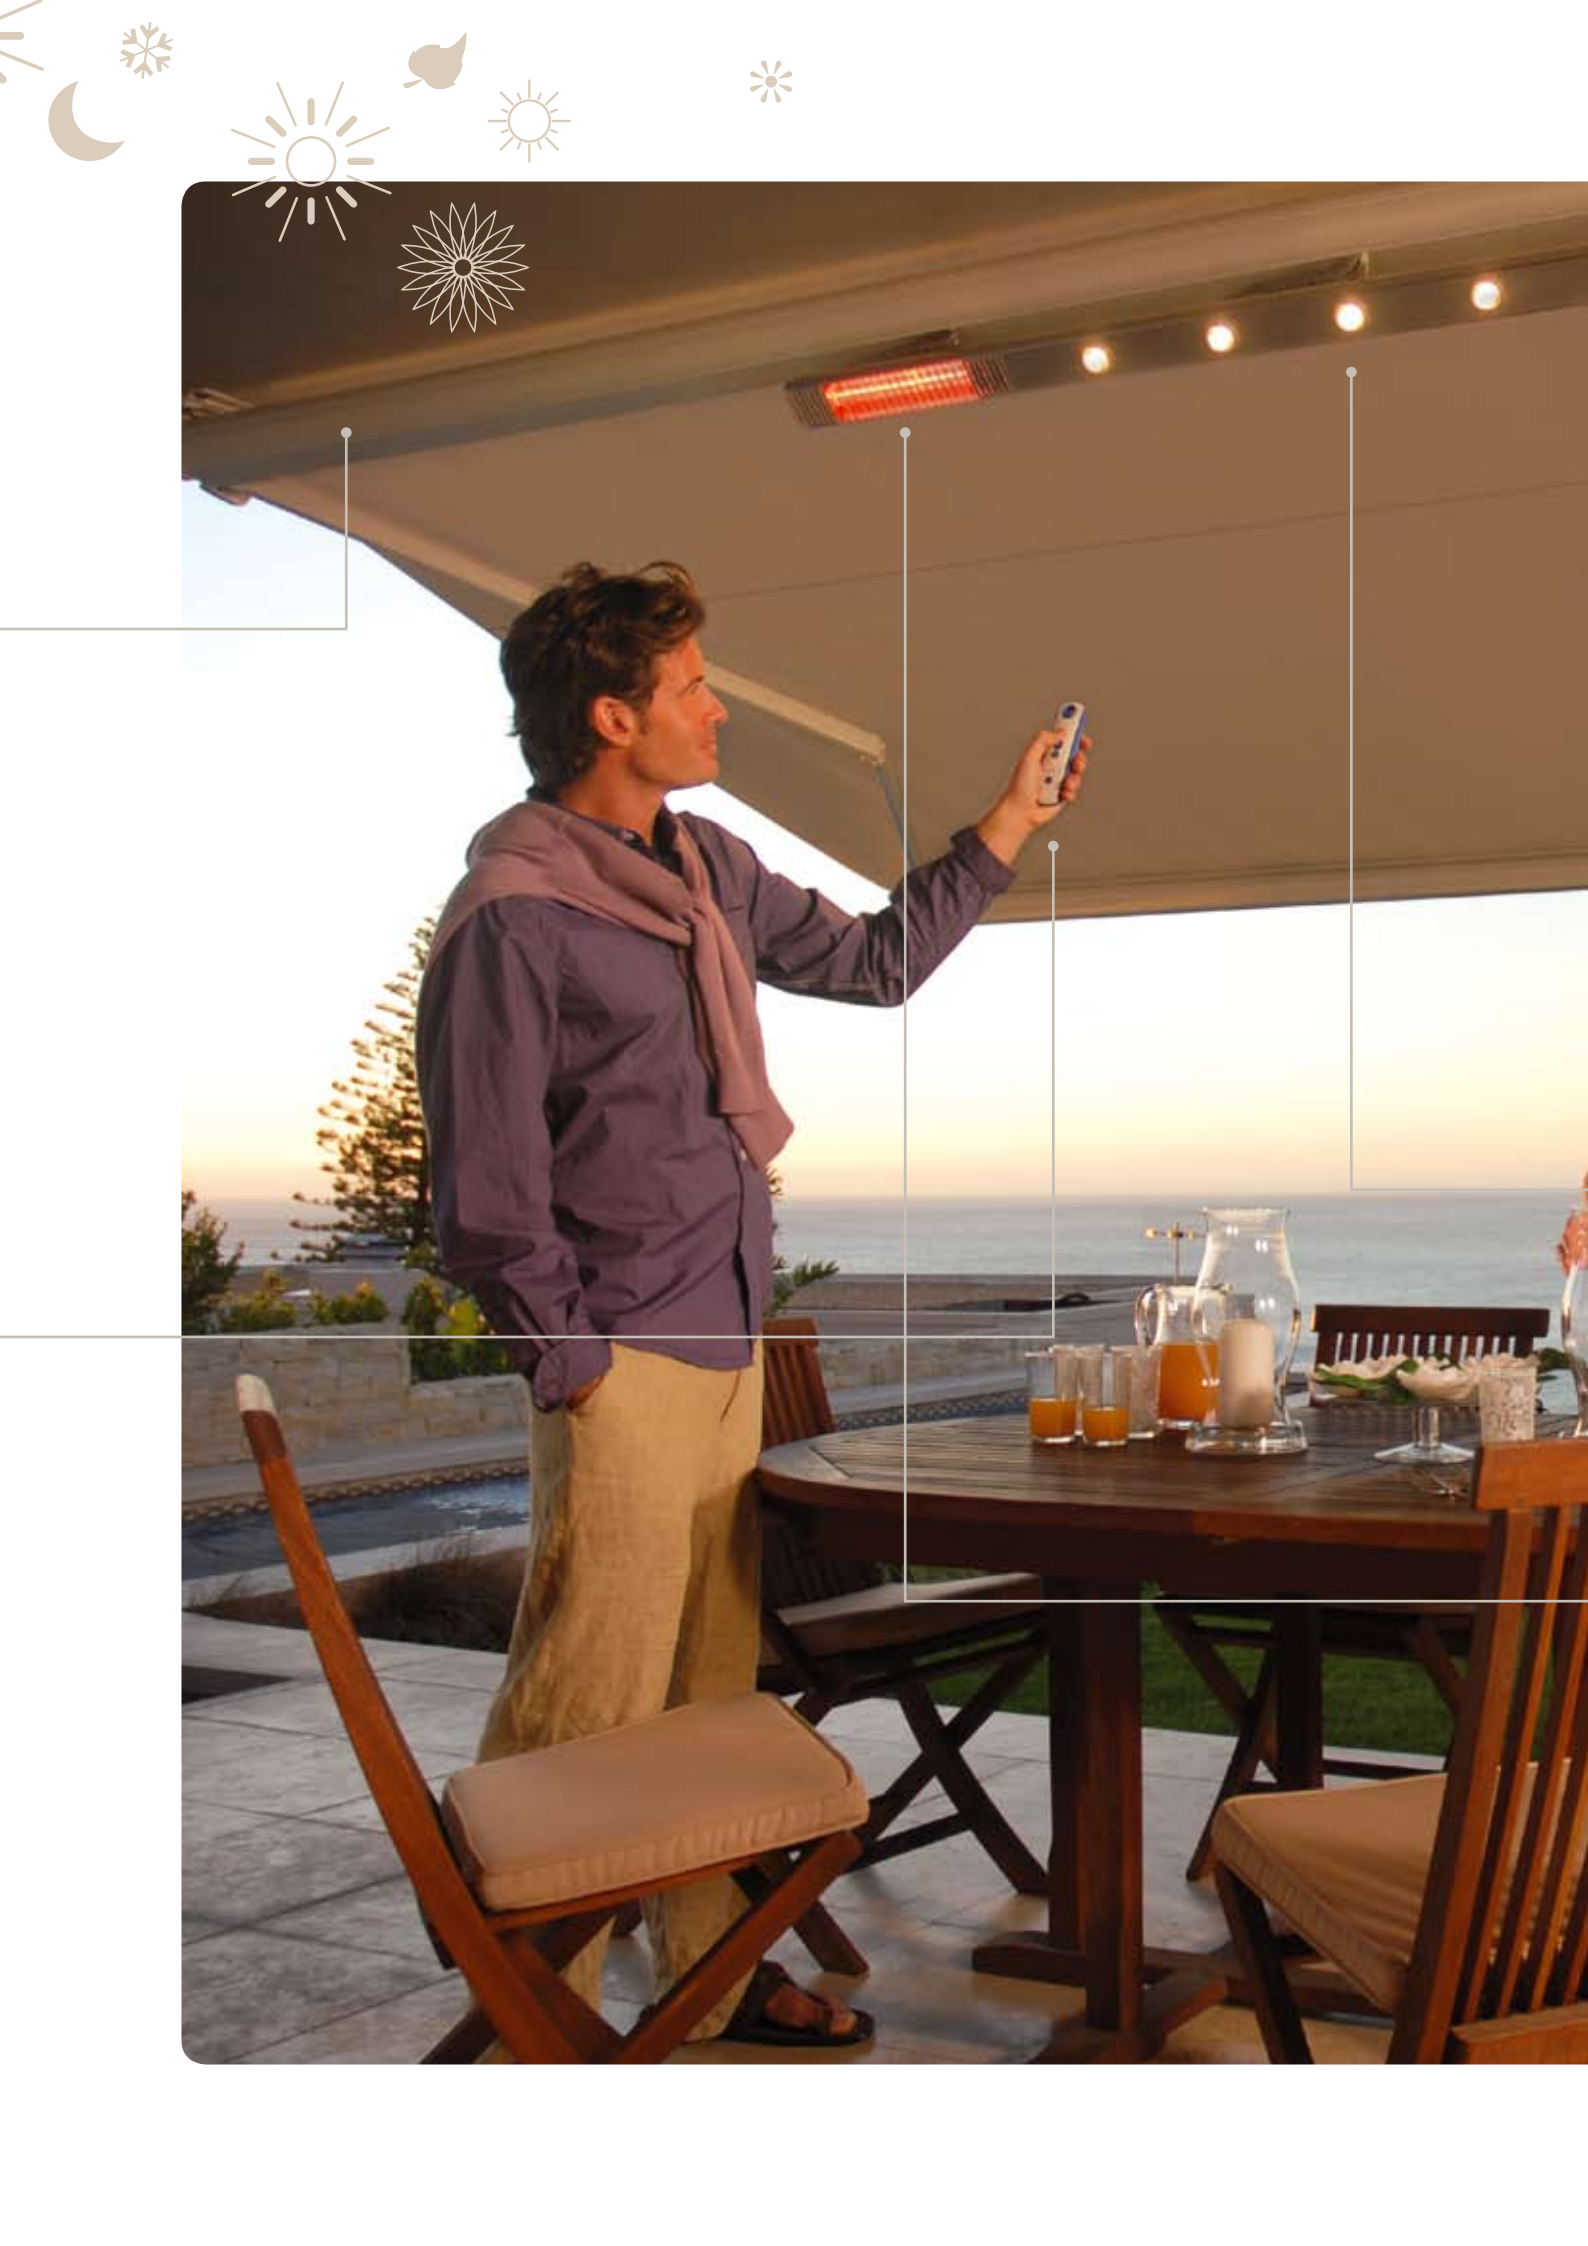

Radio Technology Somfy®

#### RTS, quick and easy to install.

- Secure radio technology.
- No cabling constraints.
- New functionalities can be added at any time without reconfiguring the installation.
- Simplified setting and programming procedures.

## PATIOS THE SOMFY WAY

Functionalities that provide comfort all year round.  
Automatic weather response systems.

### Clever!

#### Sunis WireFree RTS

- 100% independent sun sensor.
- Automatically activates the awning when the programmed sunlight threshold is reached
- Easy wireless installation.
- Discreet – integrates into the façade.

### A must have!

*Wind and sun version  
also exists: Soliris RTS*

#### Eolis RTS

- Wind sensor.
- Automatically raises the awning in case of strong winds.
- Easy to install, with no intermediate receiver.
- Easy to program.

### AUTOMATIC WEATHER RESPONSE

#### RTS lighting receivers

- Come in 3 versions, depending on the type of installation:
  - outdoor 500 W
  - indoor 500 W
  - module 500 W
- Simple set-up – just connect them directly to the power source.

Outdoor RTS lighting

Indoor RTS lighting

Lighting receiver module

### LIGHTING

#### RTS heating receivers

- RTS receiver for heating devices.
- Easily integrated into the load bar.
- Quick installation by direct connection to the heat source.
- 2000 W.

### HEATING

### For upgrades!

#### Universal RTS receiver

To convert any traditional wire-based installation into an RTS installation.
